

I have been involved with many things while at Kishwaukee College. This includes Phi Theta Kappa, National Society of Leadership and Success (NSL), Performing Arts Club, S.H.I.E.L.D, Women's Cross-Country, and Sigma Delta Kappa. I love to have new experiences and challenges and all of these organizations on campus allowed me to do so. My favorite part of being involved in these groups has been interacting with and meeting new people. I appreciate working with a group to achieve goals; this is very satisfying and teaches me about the importance of relationships.

- Katelyn, PTK, NSLS, Performing Arts, SHIELD, W Cross Country, Sigma Delta Kappa

+ + +

I am currently the President of National Society of Leadership and Success and I am also part of our dance team called the Kougarettes at Kish. NSLS is an organization that helps people discover and achieve their goals. It offers life-changing lectures from the nation's leading presenters and a community where like-minded, success-orientated individuals come together and help one another succeed. This was amazing to me! I found an organization that's is all about lifting each other to reach our goals and succeeded at it. With Kougarettes, we were able to CHEER on the people at all of our college's team sports events and an opportunity to dance which I enjoy a lot. We also performed in parades and community events. I also came to realize TRUST, COMMUNICATION and DETERMINATION is key. We depend on each other 100 percent. Even if we may have different opinions or if we are frustrated we are a family from the beginning and through a lifetime.

What I like most about the groups I have been are all the students I have met face to face and virtually because each and every one brings so much joy, different views and creativity to our clubs. You come together as a team and reach goals. Yet what I appreciate the most from my involvement is the creation of new wonderful memories. I feel that I have become a contributing member of the Kishwaukee College Community

- Samantha, NSLS and Kougarettes

I am involved with the Student Government Association (SGA) and was a part of the Kish college basketball team last year. Being part of a team was an important thing to me coming from high school while also enjoying the "second family" environment the women's basketball team provided. In addition, I wanted to get more involved in college, meet new people, and collaborate with others to create events to get the student body involved. I thought a great way to do that was to join SGA. I liked the opportunity to meet new people in both experiences and making new friends to have throughout college. I appreciate everything I've learned from these groups, the friends I've made, and the life lessons my coach has taught me. It's something I will always remember as I continue through the different stages of my life.

- Lauren, SGA and Kishwaukee College Women's Basketball

I have been involved with a couple clubs while attending Kish. One of those is Performing Arts Club. I got interested in joining that organization since I have a passion for acting. The club was very welcoming no matter what acting experience level an individual has coming into it. I also have been part of NSLS

and the thing I most appreciate, no matter what club, is that after the first meeting you feel like you automatically have friends on campus!

- Daijah, Performing Arts Club and NSLS

+ + +

I am currently involved in two clubs on campus, Latin X and Phi Theta Kappa. Something that made me interested in joining these particular clubs would be the other officers/members I met during the Student Activities Fair. What I enjoy the most about these clubs are the experiences in working with the club advisors, Ms. Williams and Mr. Anderson. They have provided a great sense of what being in the club means and how to use my talents and abilities to help others. I truly appreciate their work and I value all the wonderful people I have met so far while being a club officer for both groups!

- Edwin, PTK and Latin X
